

Please try following for VPN. Let us know if it is not working.

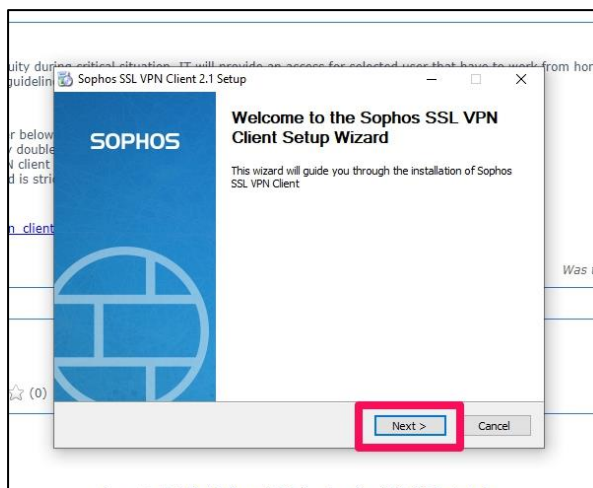

1. Go to iservice.pestech.com.my
2. Go to IT Care
3. Click on “How to download and install VPN access for Working at Home Purpose”

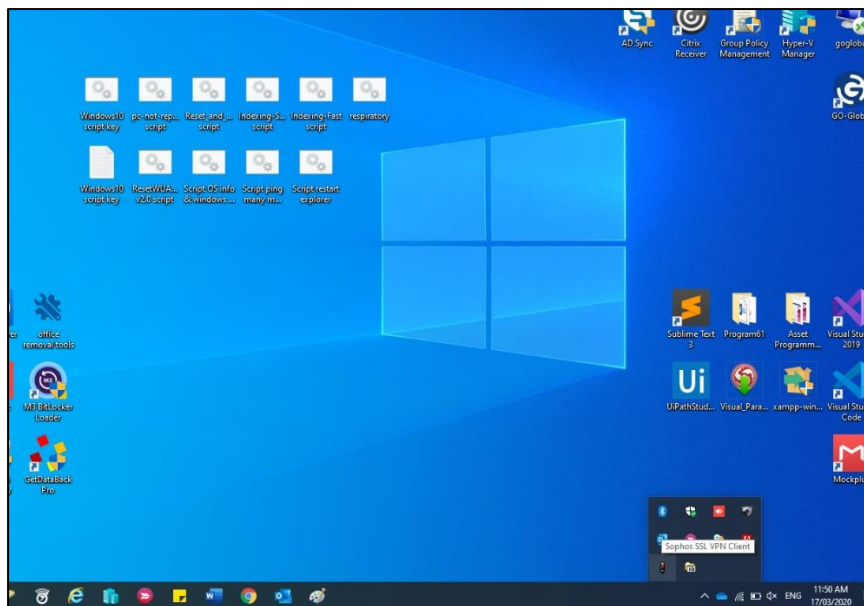

4. Click on the installer below

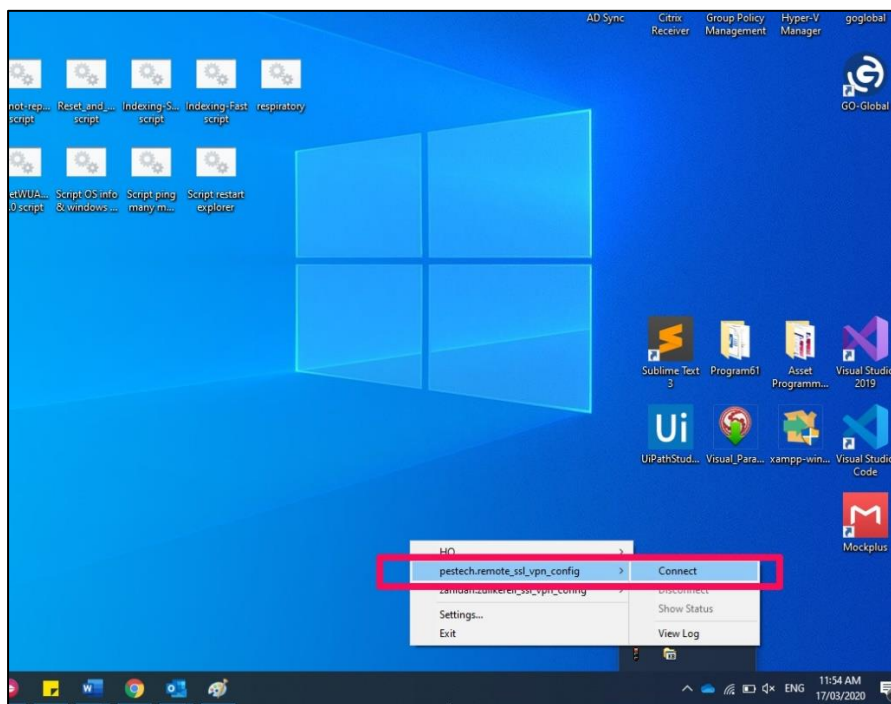

5. Open the installer and install. Click 'Next'>'I Agree'>'Install'

6. Right click on the 'traffic light' icon at the bottom of your computer screen. You can see Sophos SSL VPN Client as per diagram below

7. Right click and choose 'pestech.remote_ssl_vpn_config', and click 'connect'

8. Key in log in ID and password. After that you may access file server. Do take a note you may need an Internet connection for this to ensure that you are able to connect with the server. (The ID and password is credential and will be send by IT to selected user)
